Precision CNC Milling and Turning, Laser Cutting, Metal Fabrication and Certified Welding

Core Services

- CNC Milling
- CNC Turning
- Laser Cutting
- CNC Forming
- Certified Welding
- Assembly
- ZEISS CMM (36"x 78")
- 3D Model/Programing

Materials

- Nickel Alloys
- Stainless
- Carbon & Alloy Steel
- Tool Steel
- Aluminum
- Brass
- Copper
- Engineered Plastics
- Titanium
- Super Alloys

Machining Equipment	
5	CNC Turning Centers with Live Tooling/Y-Axis
11	Vertical Machining Centers (40in x 120in)
4	4/5-Axis Vertical Machining Centers
3	Multi-Pallet Vertical Machining Centers
2	Multi-Pallet Horizontal Machining Centers
4	CNC Tool Mills

Fabrication Equipment	
2	CNC Lasers (up to 4,000W and 60in x 120in)
2	CNC Single Station Punch Presses
3	Brakes (.500in thick x 156in long)
1	Precision Squaring Shear
3	Spot Welders up to (75KVA)
3	Tube and Angle Rollers (.75in x 10in)
2	Sheet Metal Rollers
8	MIG/TIG Welding Machines
4	Vibratory and Barrel Finishing Machines

Who We Are

Quality Products is an ISO 9001:2015 registered, ITAR certified, Custom Manufacturing Company in Charlotte, North Carolina. We provide precision machining and fabrication services for OEM manufacturers throughout a broad range of industries.

Fast Facts

- Founded in 1962
- 47,000 Sq. ft. State of the Art Facility
- Highly Experienced, Solution-Oriented team
- 3, 4 & 5-Axis High Speed CNC Machining Capability
- Machined Parts up to 120" in Length
- Full Service Fabrication and Assembly
- ISO 9001:2015 and ASME Section IX and AWS D1.1, D1.2, D1.6
- Pursuing AS9100 Certification (est. Q 3/4 '25)
- CMMC NIST 800-171-Level 2

Value Added Expertise/Services

- Reverse Engineering
- Prototype to Production
- First Article
- Manufacturing and Assembly Integration
- Project Management
- Finish Processes- deburring, heat treat, plating, and more
